Presented by:

Dr. Colleen Leners for the *All of Us* Research Program with the Islamic Center of Detroit

At the moment, health care is often one-size-fits-all. But imagine a future where your health care is tailored to you. We want to help make that future possible. How? By creating a resource that allows researchers to conduct thousands of studies on health and disease. Join us to learn more about how you can be involved in this historic effort to advance medical breakthroughs and precision medicine.

Please RSVP or Contact Us:
